SUMMARY

I am a dedicated Computer Engineering student with a strong passion for leadership and a commitment to academic excellence. I possess effective communication and problem-solving skills, and I am eager to apply my technical knowledge to contribute positively to future projects in the engineering field.

EDUCATION

BSc. Computer Engineering **Jan 2024 - Present**
Kwame Nkrumah University of Science and Technology
Kumasi, Ghana

Relevant Coursework: Autotronic(Computer Hardware Assembly and Automobile checklist), Arduino, Applied Electricity, Electrical Machines, Engineering Mathematics.

General Science **Sept 2019- Sept 2022**
Presbyterian Boys' Secondary School,
Legon, Accra

Elective Subjects: Physics, Chemistry, Elective Mathematics, Biology

LEADERSHIP EXPERIENCE

Course Representative, Computer Engineering **January, 2024 - Present**

As the current Course Representative for my Computer Engineering class, I facilitate communication between students and lecturers regarding coursework. I gather and convey student feedback on course content and academic challenges, ensuring that concerns are addressed to enhance students' learning experience.

Second Deputy Academic Board Head, Ghana Engineering Students's Association, KNUST **August 2024-Present**

In my role as Second Deputy Academic Board Head, I support the Academic Board in addressing academic concerns and enhancing the educational experience for engineering students at KNUST.

7th GESA(Ghana Engineering Students' Association) Senate Member(Budget and Finance Committee) **August 2024-Present**

In my role as Second Deputy Academic Board Head, I support the Academic Board in addressing academic concerns and enhancing the educational experience for engineering students at KNUST.

Dining Hall Chief Supervisor, Presbyterian Boys' Secondary School **2020-2021**

As the Dining Hall Chief Supervisor, I oversaw daily operations to ensure efficient meal service for students. I coordinated schedules, maintained food safety standards, and addressed any issues that arose, fostering a positive dining environment.

WORK EXPERIENCE

Spagard Technologies(Pre-University Internship)

Oct 2023 - Dec 2023

Accra, Ghana

Spagard is a software company responsible for building and managing information management systems across various hospitals in Ghana.

- I was tasked with helping to create software interfaces and providing coding assistance wherever needed to the best of my abilities, building and augmenting webpages.
- I was also tasked with building a data table for an intern record system.

KEY SKILLS

- HTML.
- CSS
- JavaScript.
- Organizational and time management skills.
- Problem solving.
- Flexibility in learning.
- Team Collaboration.
- Research
