HANZ OFOSUHENE SINTIM

+233-20-567-1946 • hanzsintm@gmail.com • linkedin.com/in/hanzsofosuheneintm

PERSONAL PROFILE

Highly motivated Computer Engineering student with strong analytical ability, leadership experience, and practical exposure to backend software development. Demonstrates discipline, adaptability, and teamwork through student governance, technical volunteering, academic support roles, and industry internship experience. Passionate about technology, problem-solving, and continuous learning.

EDUCATION

Bachelor of Computer Engineering 2024 - Present
Kwame Nkrumah University of Science and Technology (KNUST), Kumasi, Ghana

W.A.S.S.C.E (Science) 2023
Presbyterian Boys' Secondary, Legon, Accra, Ghana

RELEVANT COURSEWORK

1. Object-Oriented Programming
2. Digital Systems Design
3. Semiconductor Devices
4. Circuit Theory
5. Differential Equations
6. Discrete Structures
7. Communication Systems
8. Engineering in Society

TECHNICAL SKILLS

Programming Languages	C++, C, Python (basic)
Software Concepts	Backend logic, algorithm design, data structures, debugging, program testing
Tools and Systems	Git (basic), Linux command line (basic)
Media and Presentation	Video editing, technical presentations, audiovisual setup

PROJECT AND RESEARCH EXPERIENCE

C++ Backend Webstore System Academic / Personal Project
- Designed and implemented the backend logic of a webstore using **C++**.
- Developed modules for product management, shopping cart operations, and checkout processing.
- Implemented system functionality without using external APIs, focusing on core programming principles and internal data handling.
- Produced a recorded video presentation demonstrating the system architecture, program flow, and live execution of features.
- Gained hands-on experience in software design, debugging, documentation, and technical communication.

INDUSTRIAL EXPERIENCE

Software Intern October 2023 - December 2023

Spagard Technologies, Ghana
- Assisted with building and augmenting software interfaces and webpages.
- Provided coding assistance for internal systems and tools.
- Built a structured data table for an intern record management system.
- Supported debugging and interface testing tasks.

Software Intern October 2025 - December 2025

Spagad, Ghana
- Assisted in backend development, debugging, and testing of software systems.
- Participated in code reviews, feature testing, and troubleshooting tasks.
- Supported deployment testing and collaborated with senior developers in solving real-world engineering problems.
- Gained practical exposure to professional software development workflows and teamwork.

LEADERSHIP AND STUDENT ACTIVITIES

President August 2025 - Present

Association of Computer Engineering Students (ACES) — KNUST
- Lead and coordinate all academic, social, and professional programs of the association.
- Represent the association at departmental and faculty levels.
- Oversee planning, budgeting, and execution of student activities.

Course Representative January 2024 - Present

Computer Engineering — KNUST
- Facilitate communication between students and lecturers regarding coursework and academic concerns.
- Gather, organise, and present student feedback to enhance teaching and learning outcomes.

Second Deputy Academic Board Head Tenure ended 2025

Ghana Engineering Students' Association (GESA) — KNUST
- Support the Academic Board in addressing academic concerns across engineering departments.
- Assist in planning academic interventions, tutorials, and student support initiatives.

Orientation Committee Member 2025 and 2026

Association of Computer Engineering Students (ACES) — KNUST
- Supported organisation and logistics for fresher orientation programs.
- Assisted in mentoring and guiding new students.

Faculty Fresher Tour Guide 2026
- Led guided tours for incoming students, explaining faculty facilities, academic systems, and campus culture.

Technical Team Member

National Union of Presbyterian Students - Ghana (NUPS-G), KNUST Chapter
- Provided audiovisual and IT technical support for meetings, services, and events.

Dining Hall Chief Supervisor 2020 - 2021

Presbyterian Boys' Secondary School
- Supervised daily dining hall operations, coordinated schedules, and ensured food safety standards.

Senator

8th GESA Senate — KNUST
- Supported organisation and logistics for fresher orientation programs.
- Assisted in mentoring and guiding new students.

Orientation Committee Member 2026

ACES
- Supported organisation and logistics for fresher orientation programs.
- Assisted in mentoring and guiding new students.

Media Team Member

Church Organisation
- Handled live media production, sound systems, projection, and recording during church services.

VOLUNTARY AND EXTRA-CURRICULAR ACTIVITIES

ACES Code Fest (24th July 2024): Assisted in programme organisation and served as part of the technical support team.

ACHIEVEMENTS

Course Representative of the Year, 26th August 2024: Association of Computer Engineering Students (ACES)

ADDITIONAL SKILLS

- Public speaking and presentation delivery.
- Event coordination and technical setup.
- Team collaboration and leadership.
- Academic mentoring and peer support.

INTERESTS

- Software development
- Embedded systems
- Digital electronics
- Technical media production
- Scientific discovery and innovation

REFEREES

Mr. Akatey Collins +233 55 836 3459
ACES (Association of Computer Engineering Students) President, 2024/2025 Academic Year

Mr. Gyasi Gideon +233 50 412 7205
ACES (Association of Computer Engineering Students) President, 2023/2024 Academic Year

Mr. George Adu-Darko +233 50 119 4516
GESA-KNUST President (Ghana Engineering Students' Association, KNUST) 2024-2025

Mr. Samuel Owusu +233 20 359 0887
CEO, Spagard Technologies
